

COOLING BATH KB

FRYKA cooling baths are designed for cooling and temperature controls of liquids. They work continuously without control. The units are equipped with a low-noise, fully hermetically sealed and air-cooled compressor and are also suitable for existing immersion thermostats.

Model	KB 08-40	KB 18-40
Operation	-40°C / +20°C	-40°C / +20°C
Bath volume [l]	8	18
Bath dimensions [WxDxH] [cm]	15x30x20	30x33x20
External dimensions [WxDxH] [cm]	34,5 x 45,5 x 52	49x52x52
Electrical Connection	230V / 50Hz	230V / 50Hz
Max. current [A]	2,5	3,0
Weight [kg]	30	40

Characteristics:

- Refrigeration unit: low noise, fully hermetically sealed, air-cooled, low maintenance
- Casing parts made of stainless steel
- Easy to clean - Interior free of fixtures, rounded corners
- No electronic control over the bath which is exposed to the vapours
- Ram protection ring going over and under
- Four mounting bolts (M8 threads) at the corners of the bath for attaching support rods
- 18/10 stainless steel bath tanks
